

Miracle remedy for local Eczema

I had a local eczema over my lower leg for more than 10 years. One of my friend told me about Dr Qi Chen at Australian Natural Medicine Centre, Ryde. I discussed my problem with Dr Chen, who told me that this disease is definitely curable and may be due to some problems in immune system. Herbal medicine started showing its results after two weeks. I never believe in herbal medicine before but this medicine was miracle for me. I took this medicine for more than 4 months and my problem was gone. I am very thankful to my friend and Dr Chen who helped me to get rid of this nasty annoying problem.
