To whom it may concern,

Hi My name is Miriam Brewer, I am 50 years old. Recently I had a terrible eye infection called pseudomas.

This infection eats away at my cornea and can and is very painful.

My eyesight was also limited and I always used to wake up with my eye sticking together.

I went and saw Dr Chen and after just about 4 to 5 visits together with his mastery and wisdom and acupuncture and herbs.

I now have my eyesight and vision and I feel 100% better.

I would highly recommend Dr Chen to any one. His wisdom and Precise herbs and his acupuncture truly has helped me totally.

I am in constant gratitude to his work.

Infinite love and gratitude

Miriam Brewer
