My name is Gary Martin,

In 2010 I was unfortunately diagnosed with an uncommon cancer which affected my stomach and oesophagus. It also involved a couple of Lymph nodes in my neck, I was lucky enough not to have surgery at that stage, but did have 18 weeks and 6 cycles of Chemo. Life was looking very grim and doctors were not giving me much hope.

I was not going to go down without a fight. So after I had finished my Chemo, I heard about Qi Xin Chen at Australian Natural Medicine Centre; although I was very sceptical I thought I had nothing to lose. Well now I have been taking Herbal Medicine and Acupuncture for the last five years. My oncologist can not believe how well my health is. When I had my previous scan last October 2015 there was no evidence of this very serious illness.

Even though I consider myself "cured", I am continuing with Acupuncture and Herbs as I believe this will maintain my immune system level.

Once again a big thank you to Dr Qi Xin Chen

Kind Regards

Gary Martin
