

From Gary T Martin

3rd July 2012

From a very grateful patient

Dear Dr Chen,

As you know I came to see you just over a year ago as I had just completed 18 weeks of Chemo therapy as I was diagnosed with oesophageal cancer, as you can imagine I was feeling very depressed with the shock of having this terrible illness & of course going thru a terrible 18 weeks of this very toxic medication.

Whilst I was having my Chemo my Oncologist was not very encouraging in regards to the outcome of the treatment, he made me feel that it was just the normal course that you take when diagnosed with Cancer. He was very doubtful of my chances of survival.

My wife Grace is a nurse & of course deals with sick people every day, she too was very depressed as knowing her husband had Cancer & did not know what more could be done to help me.

One day she met a patient that had a friend with nearly the same problem as me, she was informing Grace that her friend was having Acupuncture & Chinese herbal medicine, she was saying how well her friend was now she is having this treatment, obviously Grace needed to find out more, this is when we were introduced to you Dr Chen.

I must be honest I was very sceptical as I thought once you have a serious illness like this there is no hope, how wrong I was...

Dr Chen you explained to Grace & I everything about the illness, T cells ect, the immune system & how it works.

Well you got me taking the little herbal pills all 165 a day & Acupuncture every two weeks; I cannot believe how better I felt in such a short time.

Dr Chen I still get a bit nervous when I have my CT Scans but I have been getting good results, the first one I had it showed that my tumour had shrunk which was a good start in its self, the second CT Scan my Oncologist could not even see the Tumour, the report said No evidence of decease.

When you saw my scan I always remember you saying that I have the insides of a teenager.

I went back to my full time employment shortly after my Chemo, my colleagues can not believe how well I look, they even say I look better now than before I were diagnosed, that is a compliment in itself .

Well Dr Chen, I want to thank you so much for what you have done for me & also thank my dear wife Grace for finding you.

I firmly believe that my outcome would have been completely different if I did not take this Chinese Medicine.

I am only too happy to recommend you to anyone that needs your help

Warmest Regards
