Thank you for helping give back my life  
please find my testimonial below

### Testimonial - Brian from the Central Coast

I was diagnosed with Stage 4 Bladder cancer in February 2014 and given a very poor prognosis of recovery and survival. The bladder cancer had spread to my stomach wall muscles therefore my bladder could not be removed because it had lodged itself against my stomach wall muscles I had lost so much weight - 16 kilos and loosing more weight rapidly

My medical oncologist suggested I commence chemotherapy and radiation treatment immediately however my wife who very much believes in the healing with natural therapies and traditional Chinese medicine ,which I never much believed in, suggested I also visit Dr Dr Chen at the Natural Chinese Medicine Therapies at Gladesville and I agreed with her I am so glad that I did Dr Chen has a special gift from God for healing a truly wonderful gifted Doctor with out Dr Chen looking after me I guarantee I would not be alive for today as of mid January 2016 there is no sign of cancer.

Thank you Dr Chen for my healing for the rest of my life.
