Dear Dr Chen

Further to my Testimonial of 2008 I a delighted to say I am still going strong and in fine health.

The combination of your dietary advice and mushroom extract pills have been instrumental in my 10 year anniversary following my run in with renal carcinoma.

For this I am especially grateful.

My regular CT scans and tests to check for any re-occurrence of the carcinoma have been all clear – I remain one of the very lucky people!

I have no hesitation in recommending you for anyone with a cancer condition.

If anyone want to contact me and discuss their cancer issues and my experience they should contact me by telephone: 0488 755 655 or, preferably, by email: [patelliott@pjdelliott.com](mailto:patelliott@pjdelliott.com)

Many thanks for all you have done for me

Yours faithfully

Patrick J D Elliott
