Dear Dr Chen

**Re: Mrs Heather KINGSLAND 06/03/1942
23 Redman Street SEAFORTH**

Thank you very much for your letter regarding Heather Kingsland. I am very happy for us to work together as a team treating her disease. As you would be aware at the current time, she is on no chemotherapy and only the treatment you have prescribed and encouragingly her CA125 has been falling, therefore, I see no reason to introduce chemotherapy at this stage. Hopefully continuing this TCM you are prescribing will continue to hold her disease.

I have taken the liberty of referring other patients to you as well. I hope you don't mind, but obviously any benefit we can achieve by whatever means is to the patient's advantage.

Please keep in contact.

Yours sincerely,
