

TO WHOM IT MAY CONCERN

I was first diagnosed with aggressive prostate cancer in July 2007 at the age of 69 years. I elected to have a prostatectomy to remove the cancer when it was found that the cancer had spread beyond the prostate which was of concern.

I then had radiotherapy as well as hormone treatment designed to eliminate the remaining cancer . I felt this treatment was not enough due to the aggressive nature of my cancer and through a friend I was told of Doctor Chen and TCM , Traditional Chinese Medicine. My wife and I met with Doctor Chen who explained how TCM can cure cancer with the use of herbs,diet and acupuncture.

I began treatment in February 2008 and after 5 years there is no sign of prostate cancer . I believe the help provided by Doctor Chen and his treatment also gave me the positive frame of mind needed to beat the cancer and maintain a healthy lifestyle.

Thank you Dr. Chen
